

FOR HOMEOWNERS TIRED OF WASTED OUTDOOR SPACE

# What If Your Patio Could Be **Usable 365 Days a Year?**

Most outdoor spaces sit empty 9 months of the year. Ours don't. Here's why our clients use their outdoor rooms more than their living rooms—even in February.

EDG Outdoor Living

Spring Grove, IL • Design & Supply Nationwide • Serving Chicago to Milwaukee

# Here's the Problem Nobody Talks About...

You spent \$50K+ on a beautiful patio. Premium pavers. Custom outdoor kitchen. Perfect furniture.

**And you use it maybe 40 days a year.**

- X Too hot in July.** The sun turns your patio into a convection oven by 2 PM.
- X Bugs in August.** Mosquitoes make dinner outside a blood donation event.
- X Wind in September.** Your napkins blow away. Your candles won't stay lit.
- X Rain ruins plans.** One storm forecast and your outdoor party moves inside.
- X Closed by October.** First frost hits and your \$50K investment goes dormant until May.

**The average Midwest patio gets used 6-8 weeks per year.**

That's a **\$1,250/week** cost if you spent \$50K. Most people spend more on their outdoor space than their master bedroom—and use it less than their garage.

**What if there was a way to fix all five problems at once?**

# The EDG System: Built for Midwest Weather

We don't sell products. We design and install **integrated outdoor systems** that solve every weather problem the Midwest throws at you.

## Control the Sun

Motorized louvers rotate 160° to give you full sun, dappled shade, or complete coverage. One button press.

## Shed the Rain

When closed, our pergolas are 100% waterproof with integrated gutter systems. Your guests stay dry.

## Block the Wind

Wind-rated motorized screens drop down to create a calm, protected zone—even in 30mph gusts.

## Stop the Bugs

Tight-seal zipper tracks keep mosquitoes out while preserving your view. No more citronella candles.

## Extend the Season

Add glass enclosures and infrared heaters. We have clients using their spaces in January.

## Increase Home Value

Outdoor living systems deliver 70-80% ROI and make your home the standout listing in the neighborhood.

"We use our outdoor room more than our living room now—even in November."

— Sarah M., Lake Forest, IL

# Three Systems. Infinite Combinations.

We match the right system to *your* site, style, and goals.

## Louvered Pergolas

Motorized aluminum roofs with rotating louvers. Go from full sun to full shade to 100% waterproof—all with a remote.

Snow Load Rated

Integrated LED

Built-In Gutters

Smart Home Ready

## Motorized Shades

Wind-rated exterior screens with zipper tracks. Block heat, glare, wind, and bugs while keeping your view. Retract when not needed.

30+ MPH Wind Rated

95% Bug Block

UV Protection

## Glass Enclosures

Frameless sliding glass walls that stack and disappear. Add 300+ sq ft of climate-controlled space without a full construction project.

Weatherproof Seals

Frameless Panels

Year-Round Use

Design + Supply Nationwide • Full Installation within 60 miles of Spring Grove

YEARS EXPERIENCE

## We're Not Salespeople

We're designers and builders. Our job is to help you avoid expensive mistakes—not push one product.

## One Team, Start to Finish

Design, engineering, permitting, installation—all coordinated by us. No subcontractor roulette.

## Transparent Pricing

No surprises. We provide clear budget ranges upfront and detailed quotes before you commit.

## Local Expertise

We know Illinois snow loads, Wisconsin wind zones, and every municipal code from Chicago to Milwaukee.

### Planning for 2026 Season?

Our install calendar fills 8-12 weeks out during peak season. If you want your system ready for summer entertaining, the time to start planning is **now**.

## Ready to Use Your Patio 365 Days a Year?

Book a free design consultation. We'll assess your space, answer your questions, and show you exactly what's possible.
